Writing portfolio: thestorytellermitch.com/writing

## SUMMARY

**Communications leader who understands what the models actually do, because the audience can tell when you do not.** Journalist, then communications and content strategist, then applied-AI builder; the habit that carries through: every claim gets a source.

**Eight years at Google in executive and engineering communications.** Wrote for then-CIO Ben Fried at Corporate Engineering, then ran communications for Google's 1,000+ most senior engineers at Cross-Google Engineering (xGE), building two production LLM agents for the communications function itself.

**Before Google, a decade of live national news at AJ+, CNN, Fusion, HuffPost Live, and Al Jazeera English.** Ten years deciding what ran teaches you what a working journalist needs from a technical story.

## FIT FOR PRODUCT, TECHNICAL, AND RESEARCH COMMUNICATIONS (AI-NATIVE)

- **Understand the technology from the inside:** Built and deployed two production LLM agents solo at xGE, plus public multi-agent systems on my own time.
- **Work the journalist's side of the desk:** Booked one of Foreign Policy's 2012 Top 100 Global Thinkers onto a live panel, produced an exclusive Netanyahu interview, and surfaced on-record admissions from sitting U.S. Senators.
- **Source every claim:** Built a citation-gated verification agent where no claim surfaces without its source; it caught a ~\$19K error commercial software defended as correct.
- **Write for technical audiences that punish spin:** the annual 600-person summit, quarterly forums, and the Distinguished / Principal Engineering newsletters.
- **Produce external content at reach:** Google engineering talent-branding campaigns (1.7M+ YouTube views); AJ+'s day-of **explainer line** (proof-of-concept: 50M+ views).

## EXPERIENCE

### Internal Communications Lead

Google · Cross-Google Engineering (xGE) | June 2024 – Present

Communications lead and program manager for xGE, the horizontal org that drives technical change across Google.

#### Executive-communications **digital twin** (Gemini)

- **Problem:** VP communications required long review cycles to hold a consistent voice.
- **Action:** Built a Gemini agent around a codified "Constitution" of voice rules and a banned-phrase verification checklist.
- **Impact:** Cut review back-and-forth with the VP by about 70%, an internal, self-measured figure.

#### Communications-triage agent (Apps Script + Gemini)

- **Problem:** High-volume comms intake consumed operator hours on low-complexity requests.
- **Action:** Built and deployed an autonomous three-prompt pipeline (triage, revise in Smart Brevity, escalate) with knowledge-base loading and tiered routing.
- **Impact:** Designed to auto-handle roughly 55% of inbound (est.) and projected to recapture ~160 operational hours/year (est.); documented end-to-end and handed off with a full **operator runbook**.

#### Approvals governance, cross-org scope

- **Problem:** Cross-org technical mandates stalled without a clear approvals framework.
- **Action:** Authored the Approvals User Guide (v3), Approvals Matrix, and Roles and Responsibilities framework; ran approval-intake prioritization.
- **Impact:** Drove named cross-org mandates (Keystore Rotation, Memory Safety TRR) to approval.

## xGE Connects, peer-led technical workshop series

- **Problem:** Senior-engineer expertise was not reaching the tier below repeatably.
- **Action:** Designed and ran the speaker and workshop series end to end, plus the annual survey shaping the community roadmap.
- **Impact:** Q1-2026 sessions, hosted by Google DeepMind engineers, drew record attendance.

## Senior Communications & Content Strategist

Google · Corporate Engineering (TechStop) | April 2018 – June 2024

Owned the communications and content enabling technical outcomes across Google's internal IT org and global help desk.

### Day-One onboarding rebuilt for self-service

- **Problem:** Instructor-led technical orientation could not keep pace with Google's hiring.
- **Action:** Rebuilt it into a self-service curriculum a new hire could complete without a facilitator.
- **Impact:** Delivered to 75,000+ new hires at an 88% CSAT score.

### 2023 content audit

- **Problem:** Self-service content was leaving solvable tickets on the table.
- **Action:** Ran the 2023 audit of the help-desk content portfolio.
- **Impact:** Lifted self-service solvability 9.03%, roughly 10,670 fewer tickets a year.

## PROJECTS

---

Code public at [github.com/mitwilli-create](https://github.com/mitwilli-create).

**tax-verification-agent** · Citation-gated verification over a four-layer IRS knowledge base on Claude; no claim surfaces without its source.

**voice-os** · Six-axis voice scoring and QA gates calibrated on a multi-million-word corpus of my own writing; codified voice "Constitution" plus banned-phrase checker.

**career-ops** · Extended an open-source pipeline into a cost-governed multi-agent system: 52 scheduled agents, Claude Code skills and MCP servers, live operations dashboard. CI-green; public on GitHub.

## EARLIER CAREER: LIVE NATIONAL NEWS (2010 – 2018)

---

**The engine of live news is the engine of product and technical communications: the message lands the first time, under deadline, in the principal's voice.**

- **AJ+, Senior Producer (2016 – 2018):** Led 10+ producers on a social-video channel reaching 500M weekly views; designed a day-of explainer line (proof-of-concept: 50M+ views); coached three producers into on-camera principals with Emmy and Webby wins.
- **CNN, Writer / Producer, "New Day":** Wrote and produced morning-show segments through the 2016 election cycle.
- **Fusion (ABC News / Univision), Senior Producer, "America With Jorge Ramos" (2013 – 2015):** Owned daily line-production on the primetime flagship through a 179% viewership-growth window; when **Nelson Mandela** died, rebuilt the rundown overnight and line-produced a 44-minute live breaking-news special.
- **HuffPost Live, Segment Producer (2012 – 2013):** Produced through the award-winning launch era (Mashable "Biggest Innovation in Media," 2012; Webby, 2013); sustained **Scientology**-defector coverage under active litigation with no retractions.
- **Al Jazeera English "The Stream" · CGTN America (2010 – 2012):** Founding-team Associate Producer on the network's social-first live show; launch night (250M households) pivoted to the **bin Laden** raid.

## EDUCATION

---

**BA, Journalism** | Indiana University Bloomington

## CERTIFICATIONS

---

AI Fluency · Claude 101 · Agent Skills · Model Context Protocol · Skill Builder (Opus cohort) | Anthropic | 2026

## SKILLS

---

**Product, Technical & Editorial Communications:** technical translation, internal-comms strategy at engineering scale, change-management narrative design, stakeholder management, principal-level ghostwriting, live-broadcast editorial under deadline, voice and tone calibration.

**Applied AI:** agent design (Apps Script + Gemini, Node.js), LLM orchestration, Claude Code / MCP, prompt engineering, eval and regression infrastructure.
